CALL OF INTEREST
for Assistant/Associate Professorship
in the School of Naval Architecture and Marine Engineering
National Technical University of Athens, Greece

The School of Naval Architecture and Marine Engineering (www.naval.ntua.gr) of the National Technical University of Athens (NTUA, www.ntua.gr) invites potential applicants to express their interest for a full-time vacancy position at the rank of Assistant/Associate Professor which is foreseen to be formally announced in the very near future. The candidates are expected to have experience in the area of Marine Structures. Greek-speaking candidates with overall research interests in structural response of ships, offshore and other marine structures, ship and offshore structures production methods and associated areas are encouraged to express their interest.

The successful candidate is expected to:
1. Teach and develop courses related to ship and offshore structures (indicative existing courses are: Ship strength; Ship structures – Local strength problems; Numerical methods for structural response prediction of ship structures; Ship vibrations; Ultimate strength capacity of ship structures; Inspection, repair and maintenance of ship structures; Mechanics of deformable solids).
2. Develop a strong research program in marine structures.
3. Contribute to the School's administration.

Preferably, the candidate would have a first degree in Naval Architecture or Marine Technology.

For informal enquiries, please contact:
